Carey's Hope: Imagine how you would feel being told you have a fatal illness for which there is no cure & no medication to slow its progression. Imagine how you would feel being told you may only have 3-5 yrs. to live. In Jan. 2010, Carey Hall heard these very words and the battle of living with ALS became a reality for him and his family.

Carey's Hope was created to share his HOPE- **HOPE** for a cure, **HOPE** for a useful medication, **HOPE** to bring awareness of ALS and its devastation. We pray you will join us in this effort and provide support for the Hall family. On behalf of the Hall family, we THANK YOU!
